

White Chocolate Cookie Butter Pecan Shortbread Cookies

These 5-minute no-bake cookies are **INSANELY** delicious and simple to make! Start with a pecan shortbread base, load it with a generous spoonful of cookie butter, then coat the entire thing in melted white chocolate!

10 Sandies® Pecan Shortbread Cookies

1 ½ cups cookie butter

2 cups white chocolate

Line a baking sheet with parchment or wax paper. Lay out cookies. Spoon a generous heap of cookie butter (about 2 tablespoons) onto each cookie. Smooth out the cookie butter so that it forms a mound.

In a microwave-safe bowl, heat white chocolate at 30-second intervals, stirring in between each, until chocolate is fully melted. Dip each mounded cookie carefully into the white chocolate until all of the cookie butter is fully coated. (You may need to use a spoon to ensure that the cookie butter does not fall into the melted chocolate while you are dipping.) Transfer dipped cookies onto lined baking sheet. Allow cookies to set for at least 30 minutes before enjoying!
